Thank you for your recent inquiry regarding Building Permit procedures. The following is a step-by-step list of our procedures, fees, and other notes that may assist you in understanding the regulations involved.

1. Applications may be obtained at the Township Office Monday through Friday, 8:00 a.m. – 4:00 p.m., or by mail. Checks are payable to Lehman Township. Inspector is available Monday-Friday 8:00 a.m.-3:30 p.m.
2. The Township requires a completed Building Permit application (signed and dated) copy of deed, copy of survey, copy of site plan, 3 sets of Building Plans, signed Trespass Waiver, Agent authorization (if applicable), Workers Compensation Insurance form and check payable to Lehman Township (see Building Fees). ****REMINDER: 2009 IRC Requires: all braced wall lines, shall be identified on the construction documents and all pertinent information including, but not limited to, bracing methods, location and length of braced wall panels, foundation requirements of braced wall panels at top and bottom shall be provided.**
3. A Building Permit is **NOT** needed for One-story detached accessory structures, provided the floor area does not exceed 1000 square feet.

RESIDENTIAL BUILDING FEES

Minimum fee required: \$50.00

Living space: multiply total square footage by 0.562

Garage: multiply total square footage by 0.141

Deck: multiply total square footage by 0.109

Other alterations, renovations, repairs & minor work: *Contracts over \$1,000 are \$60 for the first \$1,000 and \$5 per \$1,000 of work thereafter. Contracts under \$1,000 are \$30 flat fee. Copy of contract must be provided.*

4. Once the Building Inspector has approved your application, you will be responsible for inspection requests. Some of the various inspections involved include: footers, foundation, concrete slab, rough plumbing, framing & masonry, special and final inspections.

**** PLEASE NOTE** that after the foundation is in, all work **MUST** cease and no foundation inspections will be made until a Certified Foundation Survey Plan has been submitted, reviewed and approved by the Building and Zoning Officers. Inspection requests may be telephoned in during regular business hours, and will be placed in the Inspection Log Book for the following business day. However, a request for **FINAL INSPECTION MUST BE IN WRITING ON PROVIDED FORM.** To save time and re-inspection fee costs, make arrangements in advance so that the Building Inspector has access to the areas he will need to inspect. All temporary/permanent stairs must be installed.

5. In order to obtain a Certificate of Occupancy, an Electrical Certificate, if applicable, must be submitted to the Building Inspector prior to the Final Inspection. **Final Inspection to be submitted on provided form.**

The Township also requires, prior to the issuance of the Certificate of Occupancy, an inspection certificate, provided by a qualified individual, for all buildings using a gas appliance and any energy connection, other than electric, to verify that the installation is safe and in accordance with the manufacturers or trade specifications.

6. Occupancy of any structure prior to the Certificate of Occupancy's issuance is unlawful, and will not be permitted. Avoid problems. If your builder has informed you of job completion, consult the Township Office to verify that your Certificate of Occupancy has been issued. (Rev. 3/10)

FROM: BUILDING INSPECTOR
RE: REQUIRED INSPECTIONS

In Lehman Township, all construction is regulated by the current International Residential Code.

The Township makes the following Inspections on all new construction to determine that it adheres to the code:

1. Before the footer and/or foundation is poured; with steel re-bars hung in place (if applicable).
2. * **STOP** – an as-built survey of the foundation must be submitted before the foundation can be backfilled; with perimeter drain in place, foundation parged and tarred.
3. Before the basement or garage slab is poured.
4. Sheathing: before house wrap has been installed and taped
5. House wrap: after windows and doors have been installed. All seams and seams around doors and windows must be done.
6. Frame: After rough plumbing, mechanical and electrical, fire blocking and air barrier have been completed.
7. Insulation.
8. Drywall: before taping and spackling.
9. Final: Upon completion of all construction and grading.

Prior to issuance of the Certificate of Occupancy, the Township requires an electrical certificate, to verify that an electrical inspection (rough and final) was performed by a licensed electrical inspector.

The Township also requires, prior to the issuance of the Certificate of Occupancy, an inspection certificate, provided by a qualified individual, for all buildings using a gas appliance and any energy connection, other than electric, to verify that the installation is safe and in accordance with the manufacturers or trade specifications.

It is the builder's obligation to schedule inspections. The request for **FINAL INSPECTION MUST BE IN WRITING.**

All houses with a Certificate of Occupancy under the International Residential Code standards have completed the above review process.
